From the Director

The Department of Community Correction (DCC) respectfully submits the 2008-09 Annual Report. As a leader in the criminal justice field, the DCC effectively uses evidence-based practices, maximizes resources, and works to ensure public safety through effective supervision of offenders. DCC works collaboratively with our community to provide a seamless approach to supervision and services to reduce recidivism and break the intergenerational cycle of crime.

Offenders under our supervision participate in rehabilitative programming through participation in education, mental health and substance abuse treatment and education, life skills, and others. Reentry is coordinated, planned, and offenders are assisted in successful reintegration into society and to reduce the likelihood of future criminal behavior.

The DCC is committed to assisting with public safety by working to ensure that offenders under community supervision and in custody do not endanger the safety and security of others.

David Guntharp
Director

Board of Corrections

Benny Magness, Chair

“Fulfill the mandates of the court through the use of confinement, treatment, and supervision in a safe and humane manner, while providing offenders the opportunity for positive change, thus contributing to public safety.”

Vision

Mission Statement

“To promote public safety and a crime-free lifestyle by providing cost-effective community-based sanctions, and enforcing state laws and court mandates in the supervision and treatment of adult offenders.”

The DCC operates two major components -- probation and parole community supervision services and residential services, which are supported by the central administration. The Management Team directs and supports these major areas and works together with the Regional Team to determine priorities, address the operational needs, and create new and cost-effective solutions to issues confronting the agency. The Regional Team primarily carries out the mandates, priorities, and strategies to meet the agency goals and objectives.

Goals

- To provide appropriate and effective supervision and treatment to offenders in the community.
- To provide for the confinement, care, control, and treatment of offenders sentenced to community correction centers in an adequate, safe, and secure environment.
- To develop and implement sanctions, programs, and services needed to function within the scope of the mission.
- To improve staff recruiting, retention, and training efforts.

“We provide opportunities for positive change.”

Philosophy

Staffing

On June 30, 2009, DCC had 1,220 employees (507 in residential services, 633 in probation/parole services, and 80 at central office). Of that number, approximately 27% were White males, 9% African American males, 34% White females, 28% African American females, and less than 2% were others (Hispanic, Asian, and American Indian males and females).

During FY '09, DCC provided 44,822 hours of instruction to its employees: 1,727 employees graduated from the following DCC training programs (including hours of instructions: Employee Orientation - 9,160, Residential Supervisor Training - 12,800, Parole/Probation Officer Training - 15,120, Supervisor/Management Training - 1,240, Ropes Course Instruction - 640, Instructor Development - 480, Firearms Training -- 560, Absconder Recovery Training -- 520, Mirror Image Practical Applications -- 1,032, and Treatment Services Training - 3,270, and an additional 12,000 hours offered by the Arkansas Adult Probation and Parole Association. Personnel participate in monthly informational staff meetings.

The DCC Volunteer Program consists of individuals donating their time to assist with various projects in community correction centers and parole/probation offices statewide. During FY '09, DCC received 10,900.75 volunteer hours from individuals in the community. Additionally, DCC staff volunteered over 6,952.75 hours in service to Arkansas communities.

During 2008-09, the following programs were implemented :

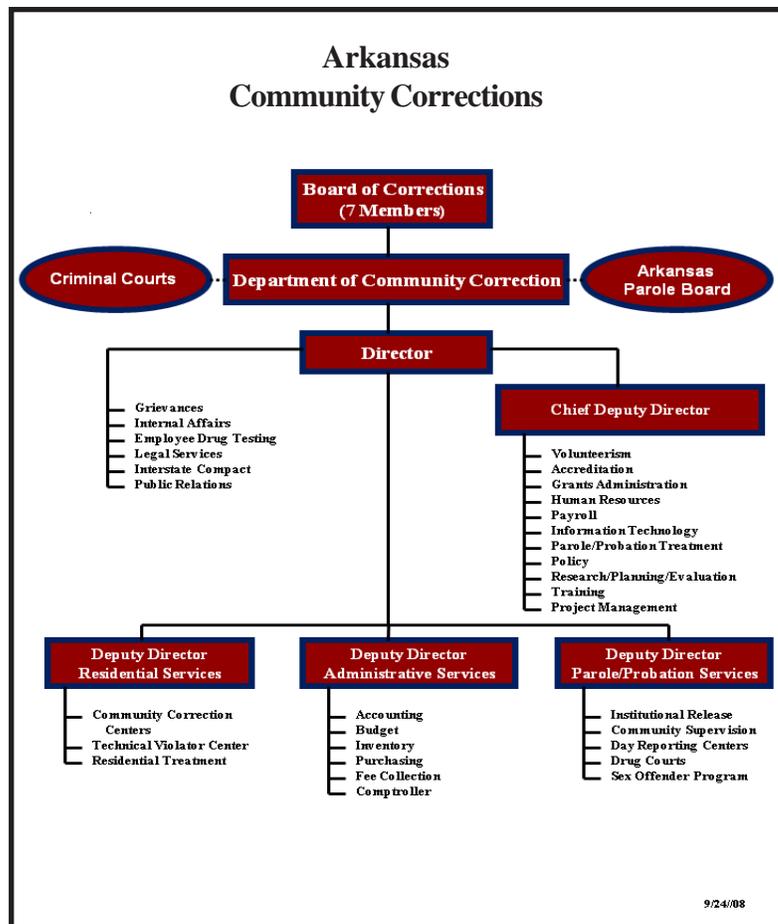

Motivational Interviewing: An interviewing technique staff uses to engage offenders in acknowledging and accepting responsibility for their actions.

JAKE: An on-line e-learning application to assist employees with a variety of training opportunities.

ICOTS: Electronic Interstate Compact Offender Tracking System.

HATA: Hiring and Termination automation -- Initiated Phase I (testing) for automating the hiring process.

Electronic Incident Reporting through **Business Objects**.

Probation and Parole Services

“To provide community supervision that promotes public safety, provides restitution to victims, and rehabilitates the offender into a productive member of the community.”

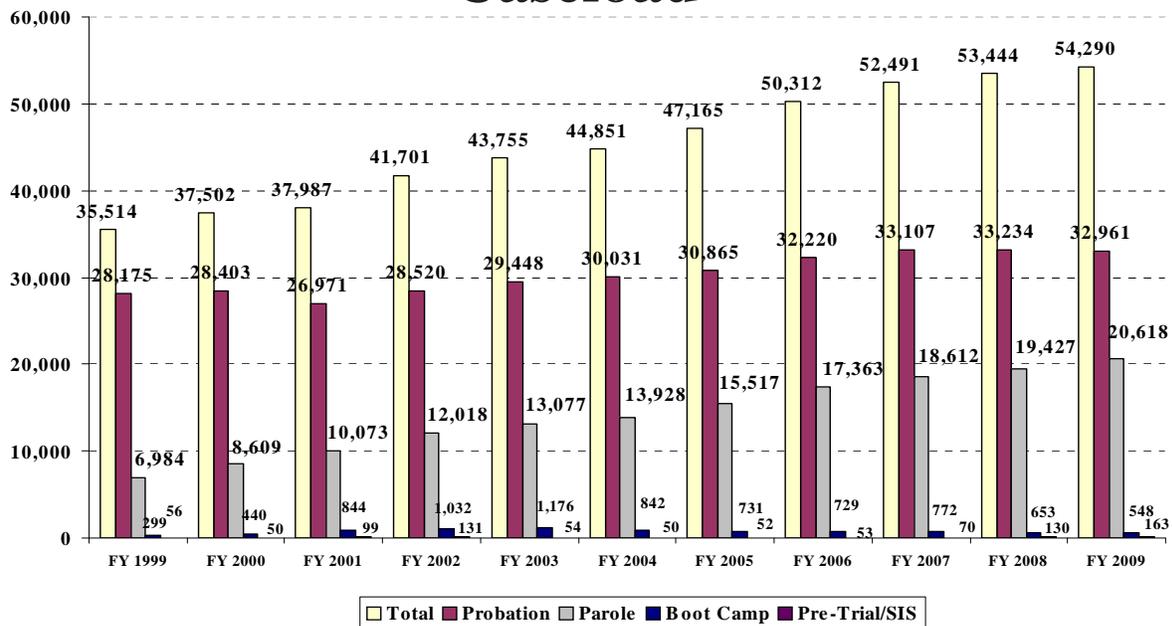

Community Supervision

Offenders live at home under conditions imposed by the court or Parole Board. Staff work with offenders, judges and other court representatives, the parole board, service providers, the interstate compact, rehabilitation agency representatives, other state and local law enforcement, and others to enforce court-ordered restrictions or conditions. Supervision officers are certified as specialized law enforcement officers within one year of hire, pursuant to the Arkansas Executive Commission on Law Enforcement Standards and Training Rules and Regulations.

On June 30, 2009, there were 52 Probation and Parole Offices serving 75 Arkansas counties. There were 633 Probation/Parole Services positions [457 probation/parole officers and managers, including institutional release officers and drug court officers], 44 drug court counselors, 26 substance abuse counselors, 10 sex offender supervision officers, and 96 administrative/support staff. Entry level probation/parole staff are required to take at least 260 hours of training as specialized law enforcement officers, as well as obtain 40 hours in-service training annually.

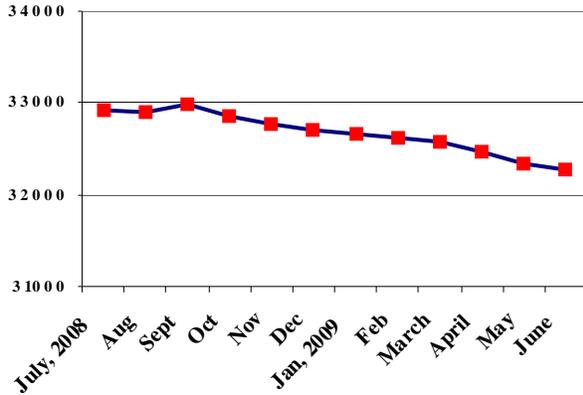

During FY '09, \$8,020,655 was collected in supervision fees, which offset the cost of supervision; 5 Day Reporting Centers were operational in Little Rock, Ft. Smith, Fayetteville, West Memphis, and Texarkana. On June 30, 2009, there were 3,025 offenders being served by the Probation/Parole Substance Abuse Program staff.

Fiscal Year 1999-2009 Caseload

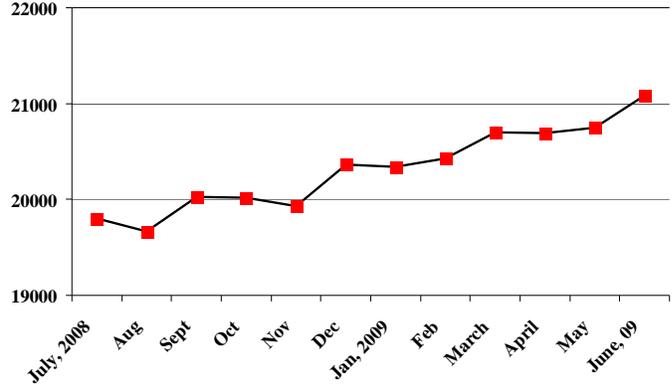

FY '09 Monthly Probation Caseload

FY'09 Average Monthly change was a decrease of 54 offenders per month.

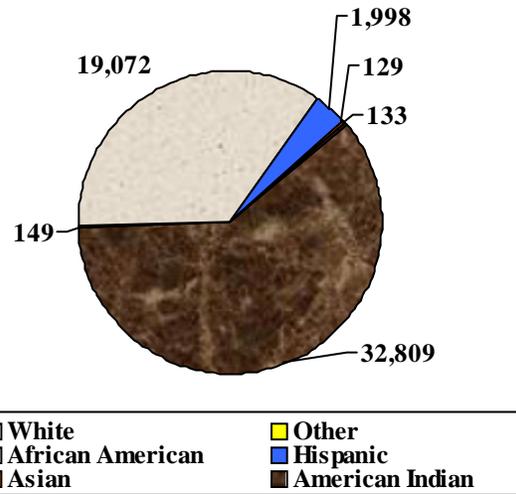

FY '09 Monthly Parole Caseload

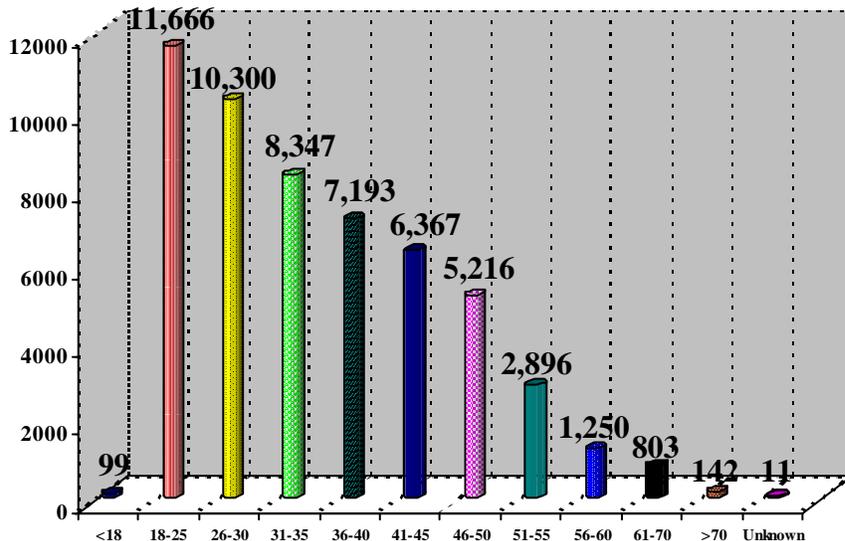

FY 09 Average Monthly change was a growth of 106 offenders per month.

On June 30, 2009, the DCC probation and parole caseload was 54,290 offenders. During the fiscal year, 20,215 were admitted to and 19,885 released from supervision. Of those released, 52% were successfully discharged, 18% were revoked to ADC or DCC for a technical violation or new felony conviction, 10% were revoked to a technical violator program, 5% were transferred through the Interstate Compact to other states, 6% returned from other states and discharged, 2% died, and 7% were other type releases.

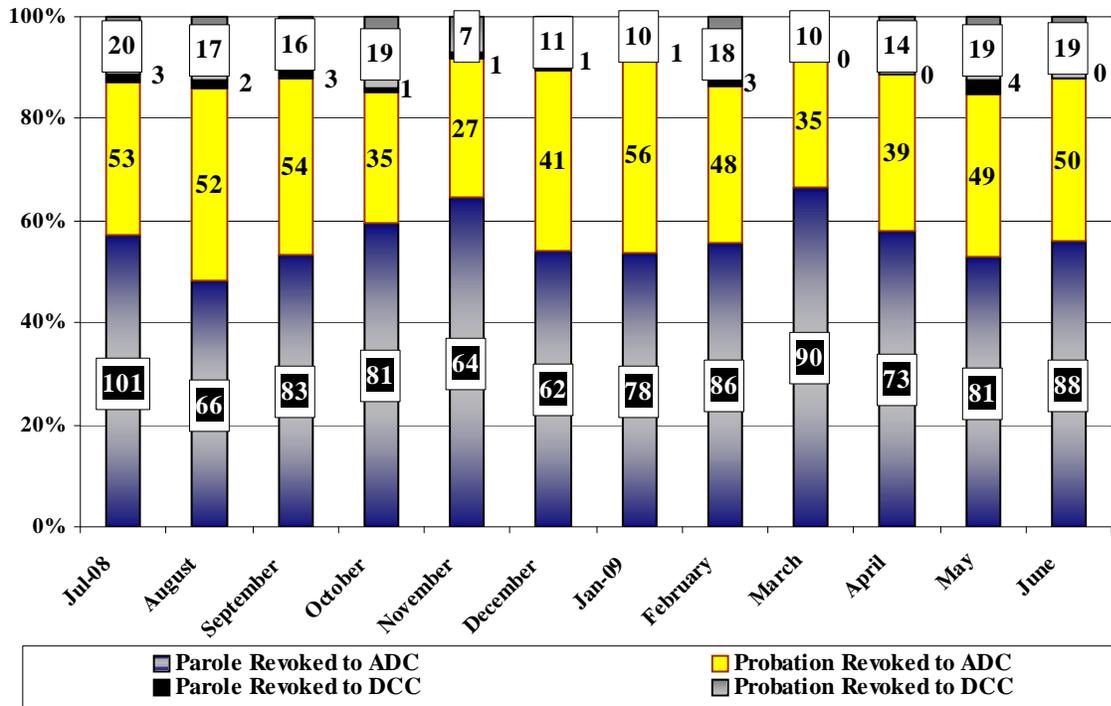

Offender Age

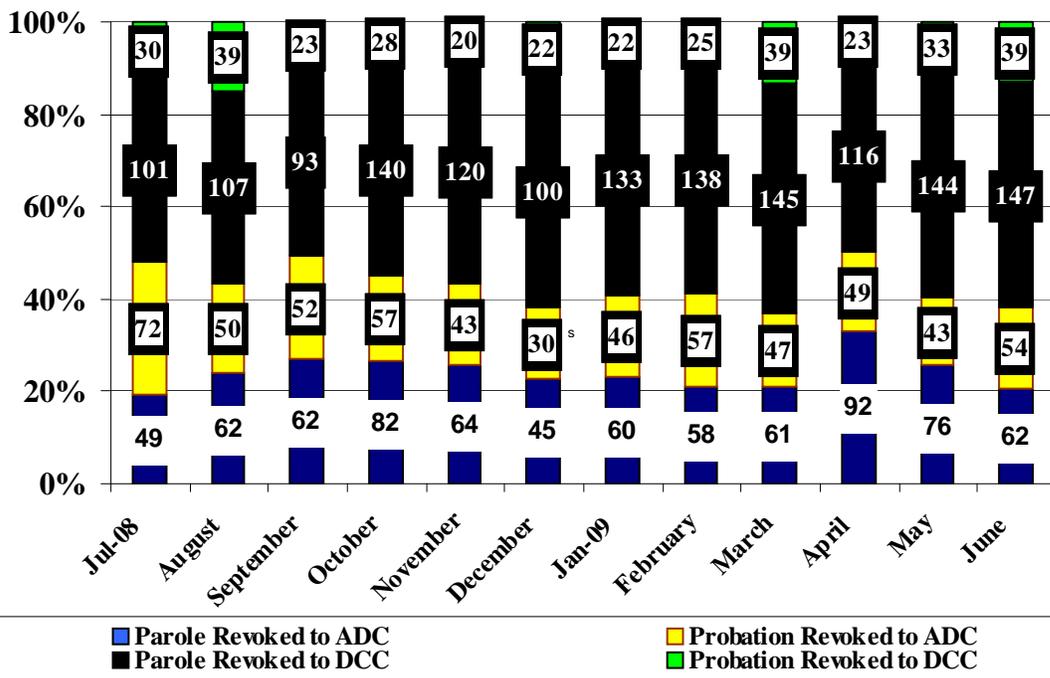

Male 76%
Female 24%
 Average Age 35.21 years

Revocations

New Felony Convictions

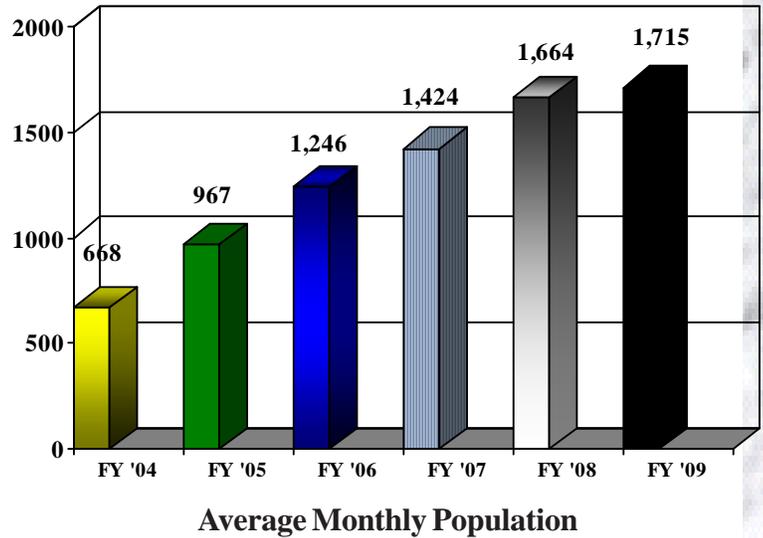

Technical Violations

As of June 30, 2009, 40 drug courts were operating statewide. The operational cost for Drug Courts is \$12.75 per offender per day.

Drug Courts

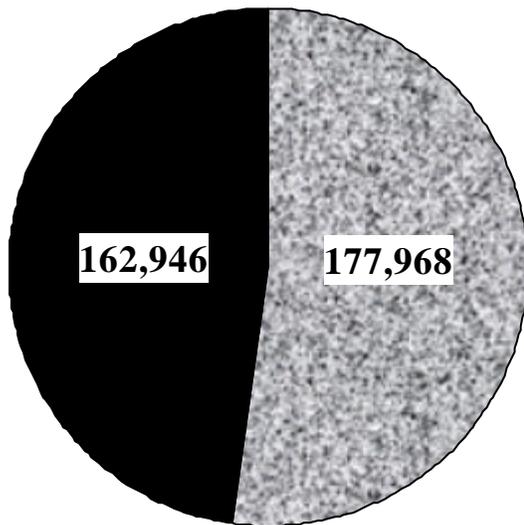

Drug Courts are courts that address addiction behavioral issues of a probationer through a team of professionals (treatment provider, supervision officer, prosecutor, judge, counselor) who collaborate and direct the activities of individuals through swift application and administration of appropriate incentives and sanctions. Participants were subject to quickly receiving treatment and counseling, economic and other sanctions, frequent drug testing and court appearances. Many times, upon successful completion of the program, charges are dismissed, sentences reduced or set aside, penalties reduced, or a combination of these options. After completion of the program, graduates may enter into a period (depending on the court) of strictly supervised aftercare program.

The drug court population has grown from 752 in July of 2004 to 1,753 as of June 30, 2009 -- a growth of 133%. Drug courts are credited with reducing recidivism, retaining clients in treatment, and improving outcomes of substance abusing offenders. ¹

Community Service

July 1, 2008 - June 30, 2009

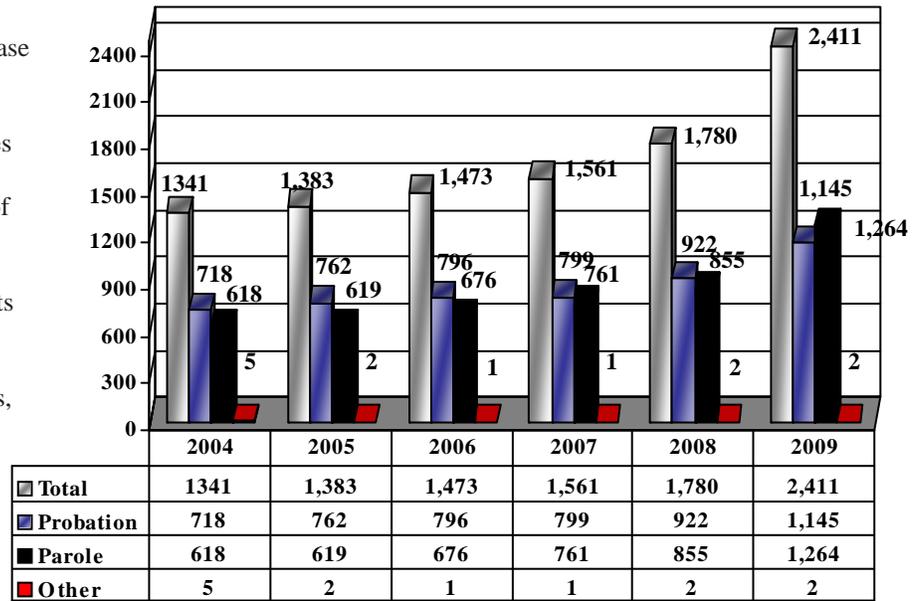

By performing community service work, offenders are held accountable for the crimes committed in their communities. The work projects performed are directed at improving the community. During FY '09 probationers, parolees, and community correction center residents performed 340,914 hours on a variety of projects across the state.

■ Residential Centers ■ Community Supervision

¹ (Marlow, DeMatteo, & Festinger, 2003).

Sex Offender Caseload (June 30, 2009)

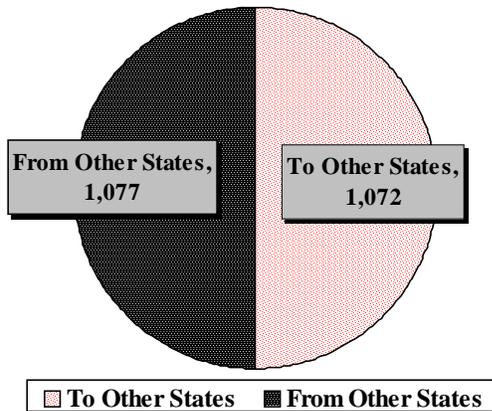

The purpose of the Sex Offender Program is to increase community safety and to reduce the opportunities for reoffense. Sex offender cases are separate from regular supervision caseloads. As of June 30, 2009, there were 10 probation/parole officers devoting 100% of their efforts to sex offenders. Five of the officers carry caseloads, 2 provide voice stress analysis, and 3 provide polygraph services.

The sex offender caseload increased 44% from 2004 to 2009.

■ Total ■ Probation ■ Parole ■ Other

Interstate Compact

The DCC participates with other states through the Interstate Compact Agreement to transfer the supervision of eligible parolees and probationers authorized to and from other states. Responsibilities include processing investigation requests, providing progress reports, issuing warrants on absconders, and processing extraditions. From July 1, 2008, through June 30, 2009, 3,688 events were processed, 1,390 (38%) parolees, 2,295 (62%) probationers, and 3 (<0.1%) suspended imposition of a sentence (SIS). These events could include multiple counts for the the same offender.

To Other States

Transfer to another state	1,072
Normal or early termination	413

Revoked to ADC or DCC	24
Offender Death	21
Discharged Absconder	7
Returned from another state or transferred to another state	11
Other	17
Total	2,110

Substance Abuse Testing Results

Random urinalysis testing is a component of community supervision, with the goal of enforcing court conditions and mandates. There were 157,227 urine specimens provided by probationers (including drug court) and parolees for drug testing, with 20% of the specimens testing positive for at least one drug.

FY '08 and FY '09

The positive testing rate for drug court clients remained virtually unchanged from FY '08 to FY '09, while the positive testing rate for non-drug court clients increased from 31.9% to 37.5% raising the overall positive testing rate from 18.1% to 20.4% in FY'09.

Day Reporting Center (DRC): The DCC operates five day reporting centers in Fayetteville, Ft. Smith, Texarkana, Little Rock, and West Memphis. During FY '09, 4,810 offenders were served. The DRC staff includes substance abuse counselors, employment services specialist, and probation/parole officers.

A DRC is a comprehensive, non-residential program designed to promote public safety and provide offender accountability and control through intense supervision and surveillance. DRC staff facilitate offender rehabilitation through behavior modification, substance abuse counseling and education, and development of employment skills. Many DRC clients are mandated by the court or the Arkansas Parole Board to attend counseling, substance abuse education, anger management, domestic violence or other issue-specific counseling or training as part of their community supervision conditions. Additionally, individual assessments are conducted by qualified staff and the areas of need identified. Program services are provided to clients accordingly.

Substance Abuse Program (SAP): From July 1, 2008 through June 30, 2009, 96 DCC staff provided the following to 3,025 clients: counseling and education, Mirror Image (MI) behavioral change modality, life/social skills development, employment readiness, health education, and substance abuse outpatient services. The SAP provides a continuum of services to offenders on community supervision.

Mental Health: Referrals are made to mental health providers, as necessary, including inpatient, outpatient, and family mental health services.

The cost for treatment is included in the overall probation/parole cost of \$1.64 per day per offender in FY 2008-09.

Residential Services

DCC operates six community-based residential centers that provide structure, supervision, surveillance, drug/alcohol treatment, educational and vocational programs, employment, counseling, socialization, life skills, community work transition, and other services. Three of the centers house technical violator programs. The locations of the centers are as follows:

Central Arkansas Community Correction Center, 4823 West 7th Street, Little Rock, Arkansas, 7220, Phone (501) 686-9800, Opened March 1994, Capacity 150 males.

Southeast Arkansas Community Correction Center, 7301 West 13th Street, Pine Bluff, Arkansas, 71502, Phone (870) 879-0661, Opened August 1994, Capacity 350 females.

Northeast Arkansas Community Correction Center, 1351 Cyro Road, Osceola, Arkansas, 72370, Phone (870) 563-0210, Opened August 1999, Capacity 240 males.

Southwest Arkansas Community Correction Center, 506 Walnut Street, Texarkana, Arkansas, 71854, Phone (870) 779-2036, Opened November 1995, Capacity 475 males

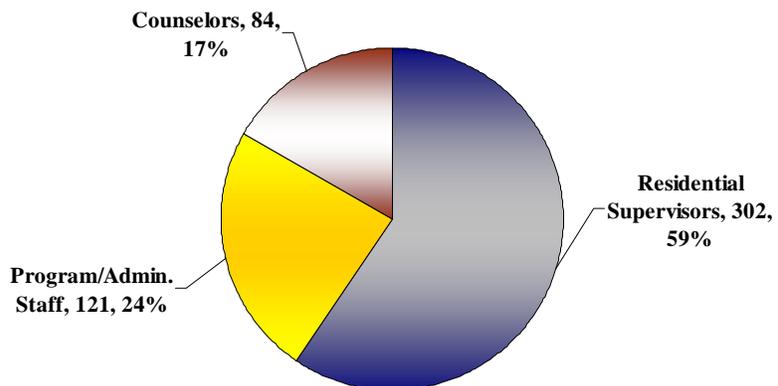

Northwest Arkansas Community Correction Center, 114 North College Street, Fayetteville, Arkansas, 72703, Phone (479) 695-3400, Opened April 2008, Capacity 100 females.

Omega Technical Violator Center, 104 Walco Lane, Malvern, Arkansas, 72104, Phone (501) 467-3030, Opened March 2005, Capacity 300 males.

Generally, residents receive substance abuse treatment and education services provided primarily by the center staff and limited mental health services through a medical contract. They operate within a modified therapeutic community (MTC), which is a behavioral modification method for addressing criminal behaviors and patterns. The rules are clearly stated, learned in orientation, and modeled in everyday activities. DCC treatment focuses on a multi-level approach to reach desired re-socialization -- a change in thinking and behavior where pro-social choice and actions become automatic. To achieve behavioral changes, the residents are taught new concepts, new values, and rules of expected conduct. Staff model right living. They are given structure through a therapeutic environment of peers following, teaching, and modeling the new values and morals. There are positive and negative consequences for behavior.

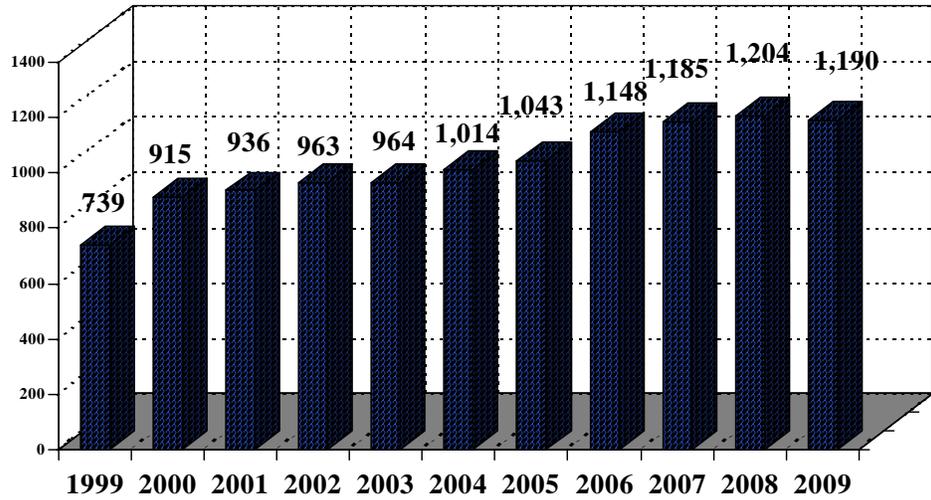

Staffing

On June 30, 2009, 507 staff were employed at the six centers (302 correctional officers, 84 counselors, and 121 program and administrative staff). Each residential supervisor is required to take 160 hours of basic training with 40 hours of on-the-job training. After the initial 12 months of employment, an additional 40 hours of in-service training is required annually.

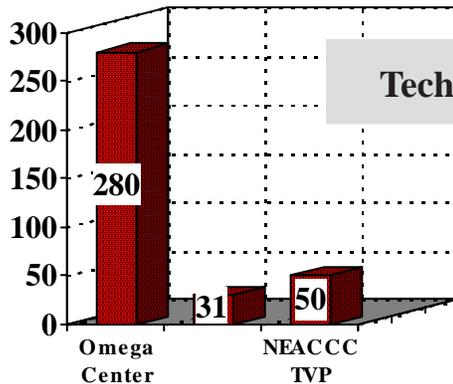

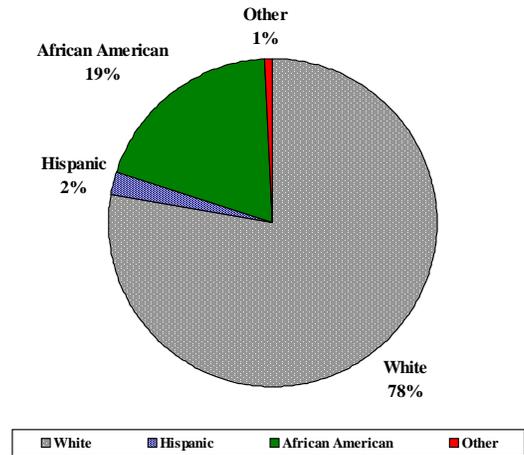

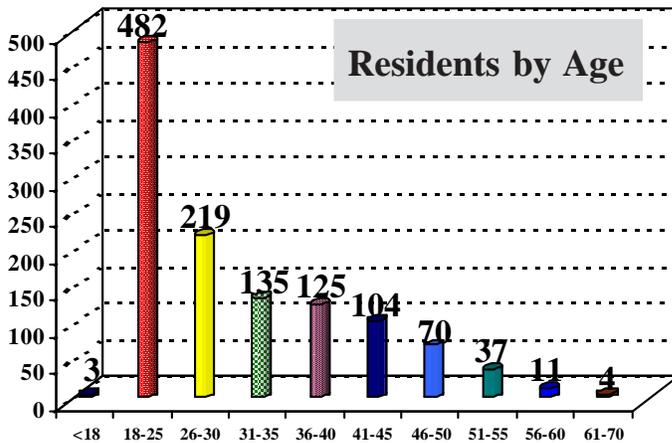

Correction Center Population

(June 30 -- Excludes technical violators)

From 1995 to 2009, the June 30th community correction center population (excluding technical violators) increased by approximately 196%

During FY '09, 2,904 offenders (67% male, 33% female) were confined in DCC community correction centers, with an average age of 31. Of that number, 66% (1,811) were intakes. The average sentence length for new commitments was 1.89 years and the average time served in a community correction center during FY '09 was 247 days. The 3 most common crimes that resulted in placement in a community correction center were Manufacture/Delivery/Possession of a Controlled Substance, Theft of Property, and Forgery.

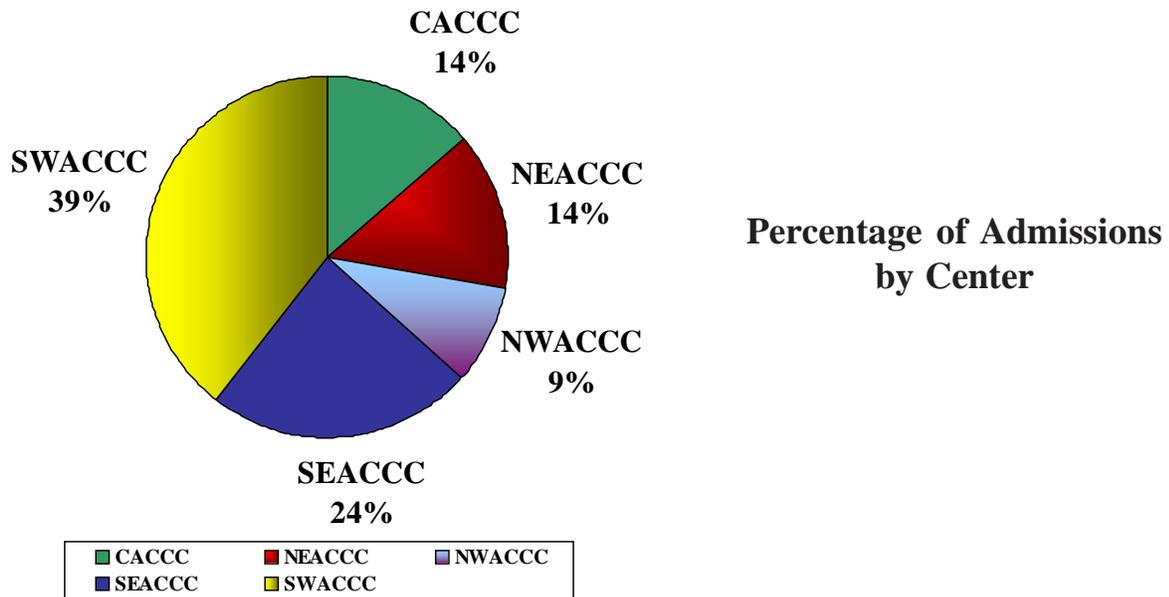

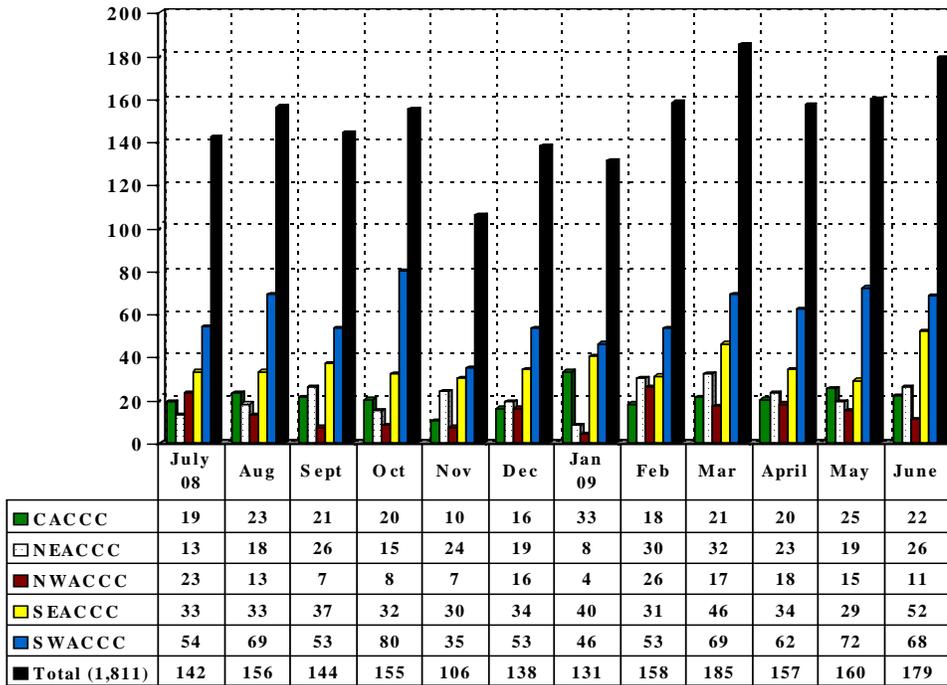

Fiscal Year 2008-09

DCC Admissions

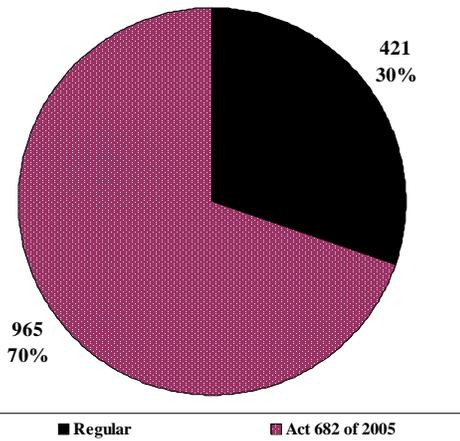

(Excludes technical violators)

1,811 offenders were admitted to a DCC community correction center from July 1, 2008 - June 30, 2009

County Jail Backup

Residential Treatment

Short and Long Term Substance Abuse Treatment:

In using the MTC concept as a method for change, substance abuse recovery is a major component of treatment. Substance abuse programs are designed to serve residents upon entry until discharge. Aside from the MTC, program components include cognitive intervention to address both addiction and thinking errors, and the 12-step approach to give residents a concrete, step-by-step way at looking and working through offender and addiction issues. The purpose for treatment is to give offenders tools with which to identify past errors in thinking and acting, alternate thinking methods of making new beliefs and behaviors workable, and an environment in which residents can safely practice changed thinking and behavior. DCC focuses on changing thinking and behavior where pro-social choice and actions become automatic/reflexive. Residents are given structure (something many of them never had) and immersed in an environment of peers that are following, teaching, and modeling the new values and morals.

The cost for residential substance abuse treatment is included in the overall cost of \$53.01 per day per offender in FY 2008-09.

Special Needs Program (SNP): The SNP is a 60-bed male and a 50-bed female unit for dually-diagnosed offenders who have records of substance abuse, mental health, and/or medical issues. DOC operates a total of 60 male technical violator beds and 50 female beds. These are the only DCC-operated programs offering treatment for dually-diagnosed offenders in DCC custody. These programs operate within modified therapeutic communities at the Southwest Arkansas Community Correction Center in Texarkana (males) and the Southeast Arkansas Community Correction Center in Pine Bluff (females).

The program is designed for long term treatment, with an average completion of 6 to 12 months. Treatment for the dually diagnosed includes, but is not limited to individual and group therapy, Rational Emotive Therapy (RET), 12-Step recovery dynamics, process/static group, pre-release, life skills group, cognitive intervention/addiction offender cycle, positive mental attitude, parenting, peer support, mental health referrals, anger management, and morning (AMD) and evening (PMD) groups.

Technical Violator Program (TVP)

July 1, 2008 - June 30, 2009

Males -- Malvern and Northeast Arkansas

- ❖ 1,745 offenders* were admitted in the fiscal year.
- ❖ 1,587 offenders were released to community supervision or discharged.
- ❖ 27 offenders transferred directly to ADC from Omega (1.5% of all admissions).
- ❖ 399 were readmitted to the TVP following initial releases (25% of all releases).
- ❖ 596 releases to community supervision returned to incarceration.
- ❖ 132 releases were in county jail backup awaiting incarceration or return to the TVP on June 30, 2009.

Females -- Pine Bluff

- ❖ 175 offenders* were admitted admissions in the fiscal year.
- ❖ 168 offenders were released to community supervision or discharged.
- ❖ 31 were readmitted to the TVP following initial releases (18.5% of all releases).
- ❖ 53 (31.5%) of all released from TVP to community supervision have returned to incarceration (87% to ADC and 13% to DCC).
- ❖ 5 releases are in county jail backup awaiting incarceration or return to the TVP, as of 6/30/09.

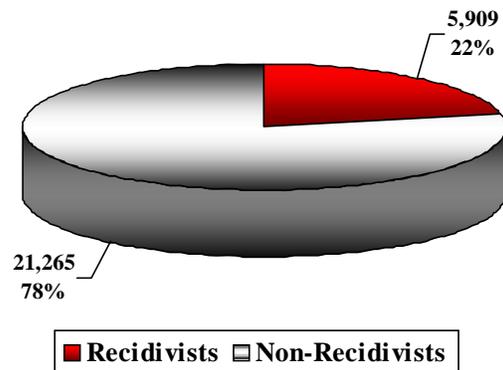

* Count may include multiple admissions per offender.

Recidivism

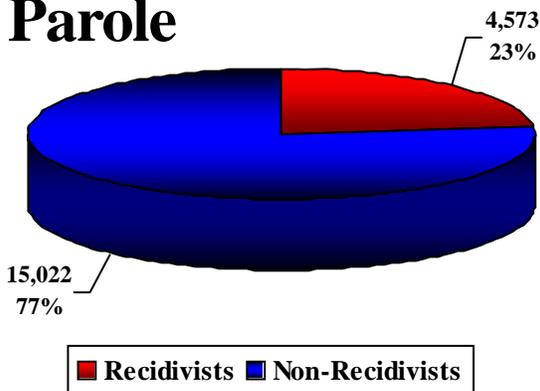

Recidivism is defined as a return to incarceration in an ADC or DCC facility for a new felony conviction or technical violation.

Probation

The overall recidivism rate for the probation population studied in July 2008 is 21.7%. This represents 5,909 probationers regardless of the length of time between the intake date and the recidivist event.

Parole

The overall recidivism rate for the parole population studied in July 2008 is 23.7%. This represents 4,573 parolees regardless of the length of time between the intake date and the recidivist event.

Community Correction Centers Act 682 of 2005 Releases

Act 682 of 2005, commonly referred to as the Early Release Act, allows the Arkansas Parole Board to release inmates under the following conditions:

The offender was judicially transferred to the Department of Community Correction (DCC);

The offender has been incarcerated in a DCC correctional center for a minimum of 270 days; and

The offender has participated in and successfully completed the treatment program operated within a community correction center (CCC).
